Writing

Can you believe how many letters your children are learning about!?

Nn, Ww, Pp, Hh, Mm, Aa, and this week we will learn the letter Bb with Beautiful Blessing Balloons!

We will talk about the wonderful blessings that God gives to each of us and write him a Blessing of Thanks, attach it to a balloon, and send them off to heaven. An innovative way of sending God special mail!

Reading

Different books will be read that teach and emphasize the many **Blessings** that God has done for us.

Autumn, a wonderful "Aa" word, is the season for harvesting different vegetables and fruits. A wonderful way to learn about how that happens is to read about, and plant our very own pumpkin plants! From seeds to pumpkins, just like Johnny Appleseed planting apple seeds for apples!

"Success is going from failure to failure without losing your enthusiasm." – **Abraham Lincoln**

Math

Do you know how many seeds are in a pumpkin? This week we will cut open a pumpkin and guess how many seeds are in it! Then we will count the actual amount! It's a great way to teach young children how to make an hypothesis, just like a mathematician or scientist!

We will also learn how a pumpkin plant grows. The three things that make a plant grow are water, air, and sunlight. Your children will learn so much this week that you will be amazed with what they share with you!
