Writing

Now that we know most of our letters and how to write them the children are writing words from the board and find it easier to produce words beginning with the letter the class is focusing on.

They are all so bright and have fun trying to sound out words and try to spell them. We are well on our way to learning to read and the children have fun recognizing written words or sharing their new ability on how to spell!

Reading

SPACE THE FINAL FRONTIER...

The books we are reading and looking through have to do with our Solar System. The children are learning all about the Sun, Earth, and her neighboring planets! We will put together all that we learn on display at the Science Fair in February.

Have fun at home by reading to your child! It's a fun and exciting way build up their vocabulary and develop engaging conversations with your growing preschooler about what the book was about and what you both learned!

Letters we have introduced:

Nn, Ww, Pp, Hh, Mm, Aa, Bb, Kk, Dd, Ff, Oo, Cc, Ee, and introducing the letter... Yy!

Math

Numbers and Counting!

Number recognition from 1-10 and counting out objects from dinosaurs to shapes, helps develop math skills to keep your preschooler focused and on task!

Some ways you can develop these skills at home can be by counting how many toys need to be picked up, how many people are in your family, or how many licks to eat an ice cream cone!

Upcoming Events

Wednesday, February 2 – We are getting ready for the Science Fair on February 23 with a visit to the Phoenix Children's Museum! Cost is \$7 per person. Each child must be accompanied by an adult. **Money must be turned in by Monday, January 24.** Flyers will go home this week!

Letters to Recruit Pritsos! Letters of encouragement help new recruits get through their grueling schedules. Mail from people who care is so important. I know he would love to hear from you!
