Pre K 4 News

Writing

This week we will be copying one or two-word descriptions of the planets in our solar system. Go over them with your child if you wish and even though some scientists say that Pluto is too small to be a planet, we don't want it to feel left out, so go ahead and include it!

Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, Neptune, and Pluto.

Reading

Check out these books at your local library, or ask me to take one home!

"Planets Around the Sun" By Seymour Simon

"Finding out about Sun, Moon and Planets" By Usbourne Explainers

"Stars and Planets" By The Nature Company

"Planets" By Kim Jackson and Illustrated by James Watling

"The Book of Stars" By Clint Twist

Letters we have introduced:

Nn, Ww, Pp, Hh, Mm, Aa, Bb, Kk, Dd, Ff, Oo, Cc, Ee, and introducing the letter... Yy!

Math

Continue counting with your children! Review the calendar with each day and go over what day it is! It's a great way to learn about past, present, and future tenses!

Also, ask them what they did each day and how it was different from yesterday, and what they think they will do tomorrow. It is a great way to engage in your child's activities!

Upcoming Events

Money must be turned in by Monday, January 24, for the upcoming field trip to the Children's Museum of Phoenix.

Letters to Recruit Pritsos! Letters of encouragement help new recruits get through their grueling schedules. Mail from people who care is so important. I know he would love to hear from you!
