Pre K 4 News

Writing

We will continue learning about the descriptions of the planets in our solar system. Your children are learning a lot and eager to show you everything at our upcoming Science Fair on Wednesday, February 23! Ask your children what they've learned and what their favorite planet is! They all have one, some even have two or three!

Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, Neptune, and Pluto.

Reading

So many different books are out there for you and child to read together!

Children love to have people read to them. Any kind of book or story will help them recognize the written word and recognize all the letters of the alphabet they are learning. It's a great way for them to see how the letters are put together to form new words and words they already know!

**Letters we have introduced:
Nn, Ww, Pp, Hh, Mm, Aa, Bb, Kk, Dd, Ff, Oo, Cc, Ee, Yy and Gg!**

Math

Continue counting with your children! Review the calendar with each day and go over what day it is! It's a great way to learn about past, present, and future tenses!

Also, ask them what they did each day and how it was different from yesterday, and what they think they will do tomorrow. It is a great way to engage in your child's activities!

Upcoming Events

Wednesday, February 2, is our field trip to the Children's Museum of Phoenix. Meet at school and carpool over for a funfilled day and lunch outside!

Letters to Recruit Pritsos!

**Recruit Pritsos, M.S.
3rd RTBN M CO PLT 3275
39003 Midway Ave.
San Diego, CA 92140-3275**

"It is good to renew one's wonder, said the philosopher. Space travel has again made children of us all." – Ray Bradbury, *The Martian Chronicles*
